#### Presentation and Viability Plan (St. Paul's Marmora)

Bob Wright  
DEO/CFO

As an introduction Bishop Oulton noted how Bob Wright and the congregation of St. Paul's Marmora have broadened the horizons of the parish and community, being a hub of activity and bringing in the people of the surrounding community.

Bob Wright thanked Bishop Oulton for his remarks, and gave a brief explanation of the renovations and how the parish worked through an accessible space, making a functional kitchen, better use of the hall, and better access into the building. Firstly a new kitchen was created, and through this members are now preparing meals and providing to the community, and selling outside the parish. There are a number of "spinoffs" to bring people together. Conversations have been held with the Mayor to establish what further needs are with this community. A number of suggestions have been made and St. Paul's is holding meetings to work on the group ideas. The building renovations completion has worked due to many folks putting their time and energy into the success.

Alex spoke to the financial debt for St. Paul's. If the debt was set aside, is there viability? Where there is a debt it is often hard for parishioners to focus on the ministry. Going forward it appears there is financial viability to allow focus on ministry and mission. The debt needs to be recognized, and the commitment to the debt. The debt is running very high for the parish. First part is to freeze the interest accumulation, and the second is to forgive the accumulated interest. Parish is making a payment of \$10,000 by end of 2019. In 2020 to 2023 the Diocese will forgive \$10,000 per year, if the parish remains current. The parish will make an additional payment of \$10,000 by the end of 2023. The approach laid down by the Diocese to work through the debt is very encouraging. (See chart included with Minutes)

#### Insurance (Information & Discussion) Property and Liability Insurance

DEO/CFO

Insurance bills will be sent to parishes in June. Prior to 1975 there was no diocesan insurance set up. The National Church then put together a program for the dioceses, with local service across Canada through AON. Ecclesiastical Insurance Office PLC, a British-owned business with branch offices in Canada, is the Anglican Church of Canada insurer. (See chart notes included with Minutes). Alex

described the details and highlights, including the new credits for Roofing, Plumbing. Alex further described the two supplemental programs for the Diocese of Ontario being Deductible Reduction, and the Payment Plan. Alex spoke to the financing of the premiums for the parishes, and an alternative approach. Liability premium is the same for every church: \$736.20.

Alex put the following questions to Council. Discussion followed.

1. Should we consider changing the allocation of the liability premiums?

Council replied Yes; consider alternative methods for liability costs.

2. Should we consider changing the financing model and charges?

Council replied Yes to consider a change to financing models.

3. Do we wish to continue with the Deductible Reduction Program?

Council suggested the Finance Committee review question 3, or look at another system.

Thank you from Bishop for presentation by Alex and thank you to Council for contributing in the questions.
